Auditory Processing Disorder (APD) Evaluation

Your child has been scheduled for an APD evaluation. The assessment will be completed in two separate visits to this Center. Enclosed you will find forms for the child’s primary caregiver to fill out. These forms should be completed prior to the first appointment. Should you decide to mail these documents, please copies for yourself. Please bring copies of any other evaluations your child may have had such as speech, language, or educational testing reports.

Preparing Your Child for the Appointment
In order to prepare your child for the appointment, your may want to tell him/her that he/she is going to see an audiologist who is going to check to see how well he/she hears. You may want to avoid using the word “test,” as this causes anxiety in some children.

First Appointment
APD tests are not administered at the first visit. This is mainly an appointment at which your child’s hearing will be thoroughly evaluated, and the audiologist will talk with you to determine if your child is indeed a candidate for an APD evaluation. This appointment is booked for two hours.

Second Appointment
The length of this appointment will depend on your child’s attention span and performance on the APD tests. Typically, the appointment is booked for two hours. Make sure your child gets plenty of rest and a healthy meal or snack prior to the evaluation so he/she is ready to work when they arrive. Please be aware that candy and soda may encourage hyperactivity, which may reduce productivity. Sometimes there may be a brief waiting period; so, it would be a good idea to bring some activities to occupy your child.

Medications
If your child is on medication for ADD or ADHD, it is very important that they take their medication on the day of the test. This will help him/her to attend appropriately.

When NOT to Bring Your Child to an Appointment
If your child has an ear infection, serious sinus problem, or active illness, we CANNOT test him/her. Please call and notify this Center if you need to reschedule this appointment.

We look forward to seeing you and your child. Please do not hesitate to contact us at (865) 769 – 0283 if you have any questions.

Name of Primary Care Physician: _______________________________________________________

Services Requested: Auditory, Vestibular, and/or Diagnostic Evaluations

I know that commercial and state sponsored insurances pay for healthcare. I know when I get health care, my doctor sends the charges to my insurance company for payment. I know I must show my ID card to all doctors and hospitals before I get health care. I know a copayment is when I have to pay part of the bill each time I receive certain health care services. I know that it is my responsibility to get all insurance authorizations in advance.

Please initial each statement below that applies to you:

_____ I have Medicare, Medicaid, or TENNCARE. I asked for one or more of the health care service(s) listed below. I understand my insurance may not pay for it.

*A physician referral is REQUIRED to bill Medicare.

_____ I have private commercial insurance. I asked for one or more of the health service(s) listed below. I understand my insurance may not pay for it.

My doctor has told me how much of the health care service(s), listed below, I may have to pay.

Balances listed below may be added to any applicable deductibles. I must pay my balance in a timely manner in order for the discounted amount to remain in force.

The patient is also responsible for any balance listed as patient responsibility.

This is a legal and binding contract.

| Hearing Instruments**              | As Indicated    | The patient agrees to pay all balances. |

** If you request that Bridgewater Balance and Hearing bills your insurance company for hearing instruments, the PATIENT is responsible for all hearing aid balances over the actual insurance reimbursement amount of the devices.

** If you request that Bridgewater Balance and Hearing files your claim, provider write-off and discount amounts are NOT applicable on hearing instrument purchases.

** Patients that choose to purchase hearing instruments that EXCEED the amount of insurance coverage on their plan do so with the understanding that they agree to pay ALL BALANCES over the actual insurance reimbursement amount.

By signing this paper, I agree to pay for the services listed above in a timely manner.

Bridgewater will file a claim with your insurance company for all testing; however, you may be responsible for the remaining balance.

It is the patient’s responsibility to contact his/her insurance company to determine if the services to be conducted are covered.

For CIGNA insurance, Bridgewater is credentialed as an “Ancillary Provider” and therefore covered under the corporation Bridgewater Speech and Hearing.

The cost of services billed for this series of assessments is approximately $1,275.00. The patient responsibility will be no more than $595.00 after insurance reimbursement.

Some insurance companies require pre-authorization for this testing. Your primary care physician can assist you in obtaining the correct authorization.

Thank you,

Brittany Bach
Office Manager

Patient History

Patient’s Name: ___________________________ Date: __________________

School Name: ____________________________

Teacher’s Name: __________________________ Grade: __________________

Primary Reason for Referral: __________________________________________

Why do you think your child may have an auditory processing disorder? __________________________________________

Do you want your child present in the room when the APD test results are reviewed? □ Yes □ No

Is your child right- or left-handed? □ Right-Handed □ Left-Handed

How many weeks was the pregnancy with this child? __________________________

Were there any complications, illnesses, or infections during the pregnancy or at birth? □ Yes □ No

If yes, please explain: __________________________________________

Please check if you had any of the following during the pregnancy with this child:

□ Rubella □ Syphilis □ Herpes □ Cytomegalovirus (CMV) □ Toxoplasmosis □ Other

Cesarean-section? □ Yes □ No

Child’s Birth Weight: _________ APGAR Scores: __________

Did your child need oxygen at birth? □ Yes □ No

If yes, for how long? __________

Did your child need phototherapy at birth? □ Yes □ No

If yes, for how long? __________

Was your child in the NICU? □ Yes □ No

If yes, for how long? __________

Did your child pass his/her hearing screening in both ears at birth? □ Yes □ No

Has your child had his/her hearing tested by an audiologist? □ Yes □ No

If yes, when? _________ By whom? _________ What were the results? _________

Does your child have any permanent hearing loss? □ Yes □ No

If yes, please explain: __________________________________________

Is there a family history of hearing loss? □ Yes □ No

If yes, please explain: __________________________________________

Does your child have difficulty hearing when there is background noise present? □ Yes □ No

Has your child ever used hearing aids or any other amplification (e.g., FM system)? □ Yes □ No

How many ear infections has your child had at: 0 -12 mos ______ 12mo-5 yrs ______ 5 yrs – present: ______

When was his/her most recent ear infection? ____________ How was it treated? ____________

Has your child ever had tubes in his/her ears? □ Yes □ No

If yes, when? ____________

Has your child ever had any other ear surgery? □ Yes □ No

If yes, please explain: ____________

Please check if your child has been evaluated by any of the following specialists:

☐ Speech-Language Pathologist ☐ Psychologist ☐ Occupational Therapist ☐ Physical Therapist

If yes, please explain when, by whom, and the outcome: ___________________________ ______________________________________________________________________

____________________________________________________________________________________

Does your child have a current Individualized Education Plan (IEP)? ☐ Yes ☐ No

If yes, what is the primary diagnosis? ________________________________________________

If yes, what is the rollover date? _____________________________________________________

If no, do they have a 540 plan? ☐ Yes ☐ No

If yes, what is the primary diagnosis? _________________________________________

**Auditory Processing Disorder (APD) Symptoms and Subtypes**

The following checklists are drawn from a history questionnaire composed by Judith W. Paton, M.A., Audiologist, and Bonnie G. Rattner, Ed.D., Speech-Language Pathologist.

Please check all symptoms that your child exhibits.

**Tolerance/Fading Memory Type APD**

☐ Often seems to ignore people, especially if engrossed in an activity

☐ Hears less well, or is less attentive or productive, in ordinarily busy surroundings

☐ Difficulty following a series of spoken directions

☐ Unusually forgetful of information previously memorized (e.g., multiplication tables, correct spellings) or of household or school routines and responsibilities, despite frequent reminders

**Decoding-Subtype APD**

☐ Difficulty with phonics (sounding out words) approach to reading

☐ Confuses similar-sounding words; may learn words wrong

☐ Poor speller:

  ☐ Errors phonetically correct (e.g., “littul” for little)

  ☐ Errors seem random (wrong sounds, sounds or syllables are missing or added)

☐ Problems with speech clarity or articulation, or with grammar, now or in the past

**Integration-Type APD**

☐ Marked difficulty reading or writing efficiently, despite knowledge of phonics

☐ Needs to ask many extra questions to clarify a task before starting; doesn’t see the “big picture”

☐ Interprets words too literally, becoming confused or suffering hurt feelings

☐ Poor communicator – fails to explain, apologize, negotiate, and/or defend

☐ Speaks or writes telegraphically – omits facts or switches topic such that the audience cannot follow

**Prosodic-Type APD**

☐ Absorbs details and facts, but missed the “big picture”; cannot prioritize or summarize information

☐ Insensitive to tone of voice; may misjudge a speaker’s mood or be unintentionally tactless

☐ Problems with cause-and-effect reasoning; difficulty surmising the unspoken rules of conversation, play, and other situations
Fisher’s Auditory Problems Checklist

Patient Name: ____________________________ District/Building ______________________
Date: ___________________ Grade: _________ Observer: ___________________ Position: _______

Please place a checkmark before each item that is considered to be a concern by the observer:

☐ 1. Has a history of hearing loss
☐ 2. Has a history of ear infections
☐ 3. Does not pay attention (listen) to instruction 50% or more of the time
☐ 4. Does not listen carefully to directions – often necessary to repeat instructions
☐ 5. Says “Huh?” and “What?” at least five times per day.
☐ 6. Cannot attend to auditory stimuli for more than a few seconds
☐ 7. Has a short attention span
   ☐ 0 – 2 minutes ☐ 2 – 5 minutes ☐ 5 – 15 minutes ☐ 15 – 30 minutes
☐ 8. Daydreams – attention drifts – not with it at times
☐ 9. Is easily distracted by background sound(s)
☐ 10. Has difficulty with phonics
☐ 11. Experiences problems with sound discrimination
☐ 12. Forgets what is said in a few minutes
☐ 13. Does not remember simple routine things from day to day
☐ 14. Displays problems recalling what was heard last week, month, year
☐ 15. Has difficulty recalling a sequence that has been heard
☐ 16. Experiences difficulty following auditory directions
☐ 17. Frequently misunderstands what is said
☐ 18. Does not comprehend many words – verbal concepts for age/grade level
☐ 19. Learns poorly through the auditory channel
☐ 20. Has a language problem (morphology, syntax, vocabulary, phonology)
☐ 21. Has an articulation (phonology) problem
☐ 22. Cannot always relate what is heard to what is seen
☐ 23. Lacks motivation to learn
☐ 24. Displays slow or delayed response to verbal stimuli
☐ 25. Demonstrates below average performance in one or more academic area(s).

Scoring: Four percent credit for each numbered item not checked.

Number of items not checked: __________ x 4 = __________
Normative data-grade score from reverse side: __________
