

**DID
YOU
KNOW?**

**There is a standard timeline for
babies born with hearing loss.***

THE GUIDELINES INCLUDE:

Hearing screening completion by 1 month of age

Diagnosis of any hearing loss by 3 months of age

Hearing selection and fitting within 1
month of confirmation of hearing loss

*At Bridgewater Balance and Hearing, we are
committed to keeping this high standard for your
baby, to set them up for long term success.*

*Early Hearing Detection and Intervention (EHD) is a program through the American Speech and Hearing Association.

WHY CHOOSE BRIDGEWATER BALANCE AND HEARING FOR YOUR CHILD?

We offer comprehensive testing, treatment, and support for children with hearing loss. Our goal is to maximize every child's hearing potential so they can communicate as independently and successfully as possible.

WE OFFER OUR PATIENTS:

- A Personal Approach
- Knowledge and Experience
- Convenient Services
- Forward Thinking Technology

All Bridgewater locations are equipped to provide OAE, ABR, and behavioral testing as dictated by the NBHS program. Additionally, we are able to provide amplification services as indicated and partner with TEIS, making us the most convenient and comprehensive center for babies and families in the Knoxville and surrounding areas.
